

SfN Satellite Symposium

THE RYHME AND THE REASON OF DATA SHARING

Monday, November 5, 2007, 6:30 P.M.

San Diego Convention Center, Room 26A&B

AGENDA

- 6:30 P.M. **Opening Remarks**
David van Essen, President, SfN
Thomas Insel, Director, NIMH, NIH
- 6:45 P.M. **Multiple Reuses of *in vivo* Multi-Unit Recording Data**
Kenneth Harris, Rutgers University
- 7:05 P.M. **Reanalyses of Brain Gene Expression Data**
Paul Pavlidis, University of British Columbia
- 7:25 P.M. **Mapping the Human Brain: New Insights from fMRI Data Sharing**
Alumit Ishai, University of Zurich
- 7:45 P.M. **Collaborative Data Sharing Between Neurophysiologists and Theorists**
Judith Hirsch, University of Southern California
- 8:05 P.M. **Successes and Rewards in Sharing Digital Reconstructions of Neuronal Morphology**
Giorgio Ascoli, George Mason University
- 8:25 P.M. **Panel Discussion—Data Sharing Beyond Just Published**
Moderator: Nora Volkow, Director, NIDA, NIH
- Why (and why not) share?
 - What to share?
 - When and with whom to share?
 - How to share?
 - What are the technical and sociological obstacles in data sharing, and how do we overcome them?
- 9:25 P.M. **Closing Remarks**
Story Landis, Director, NINDS, NIH

Co-Organizers: Yuan Liu, NINDS, NIH; Giorgio Ascoli, George Mason University

Sponsored by: National Institute of Neurological Disorders and Stroke, National Institute of Mental Health, National Institute on Drug Abuse, National Center for Research Resources, National Institute of Biomedical Imaging and Bioengineering
